

## PROFILE

As a dedicated computer science student with a strong problem-solving mindset and a passion for programming, I am eager to contribute to creating innovative software solutions. With a focus on backend and full-stack development, I am looking for opportunities to apply my technical skills and further grow in a fast-paced, evolving tech environment.

## EDUCATION

### University of Bielsko-Biała

2020 – Present | Bielsko-Biała

Computer Science

Specialization in software engineering

## PROJECTS

### Event App [↗](#)

A web application for event registrations, complemented by an admin panel for managing workshops, lectures, participants, sponsors, partners, and prizes. Additionally, a mobile app was developed for scanning QR codes and conducting prize draws. This project served as my engineering thesis and was successfully utilized at a local IT conference for students, accommodating over 400 users.

### Personal Website [↗](#)

A website created for a basic portfolio showcase and contact information, developed using Next.js App Router, with Acceternity UI integrated to modernize the design according to current trends and standards.

## GDPR

I hereby consent to the processing of personal data contained in my curriculum vitae in accordance with Article 13 of the GDPR (Regulation (EU) 679/2016).
